SUPPORTING SAUDI VISION 2030

At TimeWatch Infocom Arabia Company, we are closely aligned with the objectives of Saudi Vision 2030, contributing to the Kingdom's evolution into a digitally advanced, secure, and diversified economy.

Our technologies enable:

Digital workforce management and automation, Smart city and smart infrastructure initiatives, Secure public and private sector environments, Operational transparency and regulatory compliance, Efficient attendance and access management.

By deploying intelligent biometric and security solutions, we help organizations boost productivity, ensure accountability, and uphold the highest standards of safety, which are essential pillars of Vision 2030.

ABOUT TIMEWATCH ARABIA

TIMEWATCH INFOCOM ARABIA IS A TECHNOLOGY-DRIVEN SECURITY AND AUTOMATION COMPANY SPECIALIZING IN BIOMETRIC IDENTITY, ACCESS CONTROL, WORKFORCE MANAGEMENT, AND AI-POWERED INSPECTION SYSTEMS.

OFFICIALLY REGISTERED AND OPERATING IN THE KINGDOM OF SAUDI ARABIA, TIMEWATCH INFOCOM ARABIA DELIVERS ADVANCED, SCALABLE SOLUTIONS DESIGNED TO MEET REGIONAL COMPLIANCE REQUIREMENTS AND SUPPORT ENTERPRISE-LEVEL OPERATIONS.

A close-up photograph of a red dart with a black and silver barrel, hitting the red bullseye of a target. The target has concentric rings of blue, white, and red. The background is dark and out of focus.

MISSION, VISION & VALUES

MISSION

To simplify security and workforce automation using reliable, intelligent technologies.

VISION

To become a global leader in biometric identity and access automation.

VALUES

- Innovation
- Precision
- Integrity
- Excellence
- Reliability
- Customer Focus

Core Values

- ✓ **INNOVATION: AI, ML, IoT-DRIVEN SOLUTIONS.**
- ✓ **QUALITY: INTERNATIONAL-STANDARD PRODUCTS WITH STRICT QC.**
- ✓ **RELIABILITY: 99.9% UPTIME WITH ROBUST HARDWARE AND SYSTEMS.**
- ✓ **CUSTOMER FIRST: EXPERT CONSULTATION, SMOOTH IMPLEMENTATION & STRONG SUPPORT.**
- ✓ **INTEGRITY: TRANSPARENT, ETHICAL, LONG-TERM PARTNERSHIPS.**

WHY CHOOSE TIMEWATCH?

- 1 100+ PRODUCTS ACROSS 7 VERTICALS**
- 2 AI-DRIVEN BIOMETRIC & FACE RECOGNITION**
- 3 NATIONWIDE INSTALLATION & SERVICE SUPPORT**
- 4 CLOUD DASHBOARDS & INTEGRATIONS**
- 5 IN-HOUSE R&D & ENGINEERING**
- 6 24×7 REMOTE ASSISTANCE**
- 7 TRUSTED BY CORPORATES, PSUs & GLOBAL ENTERPRISES**

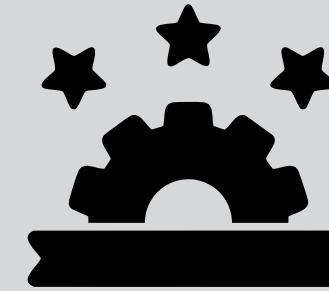

OUR CAPABILITIES

Research & Development

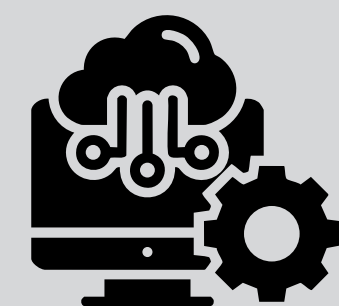

AI SYSTEMS, BIOMETRIC
ENGINEERING, EMBEDDED
CONTROLLERS, PCB DESIGN.

Manufacturing Excellence

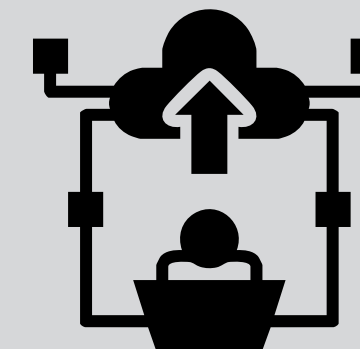

PRECISION ASSEMBLY,
RIGOROUS QC, INDUSTRIAL
GRADE DURABILITY.

Software & Cloud Engineering

WEB DASHBOARDS, ANALYTICS,
APIS, MOBILE APPLICATIONS.

Service & Deployment

ON-SITE INSTALLATION, AMC,
PREVENTIVE MAINTENANCE,
TRAINING.

PRODUCT ECOSYSTEM

TimeWatch delivers complete security and intelligent automation solutions built for modern technology infrastructure.

01 TIME ATTENDANCE & ACCESS CONTROL

OVERVIEW-

Smart, accurate, and scalable attendance and access control solutions designed for modern enterprises and secure workplaces.

Categories:

- Fingerprint Series
- TrueFace Series
- Industrial Series
- Face & Palm Series
- Iris & Face Series
- Card Reader
- Door Controller
- EM Lock & Accessories

Details

Benefits:

- Eliminates buddy punching
- Improves discipline & transparency
- Real-time HR visibility

Key Features:

Multi-biometric authentication | Fast verification speed | Cloud and mobile connectivity.

ADVANCED FUNCTIONS: AUTO ATTENDANCE POLICIES, OT RULES, LATE/EARLY RULES, ROSTERING, LEAVE MAPPING, HRMS INTEGRATION.

Fingerprint Series

OVERVIEW-

Reliable fingerprint-based biometric devices for precise attendance and access control.

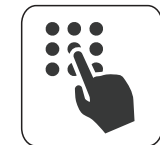

Categories:

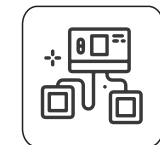

Fingerprint

Card

Password

Multi-modal Devices

Details

Benefits:

- Cost-effective security
- Proven reliability
- Easy operation

Key Features:

High-accuracy fingerprint sensor, large user capacity, multiple communication options.

ADVANCED FUNCTIONS: AUTO ATTENDANCE CALCULATION, SHIFT RULES, REPORT GENERATION, ACCESS CONTROL INTEGRATION.

TrueFace Series

OVERVIEW-

AI-powered facial recognition devices for fast, contactless, and hygienic attendance and access control.

Categories:

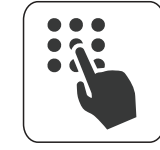

Face Recognition

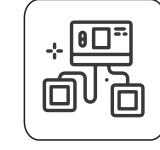

Fingerprint

Card/QR Readers

Password

Multi-modal Devices

Details

Benefits:

- Ensures touchless operation
- Faster authentication
- Improved hygiene
- Modern workplace convenience

Key Features:

AI face recognition, anti-spoofing protection, high-speed processing, cloud-ready design.

ADVANCED FUNCTIONS: MASK DETECTION, LIVENESS DETECTION, MOBILE APP LOGS, REAL-TIME CLOUD SYNCHRONIZATION.

Industrial Series

OVERVIEW-

Rugged and high-performance biometric devices designed for demanding industrial environments.

Categories:

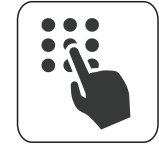

Face Recognition

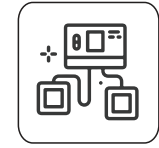

Fingerprint

Card/QR Readers

Password

Multi-modal Devices

Details

Benefits:

Improves workforce discipline, prevents misuse, and ensures consistent performance.

7 inch
Touch Screen

<0.2 sec
Verification Speed

WDR

Key Features:

Industrial-grade build, accurate biometric recognition, high storage capacity.

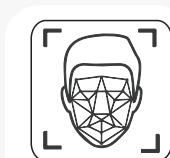

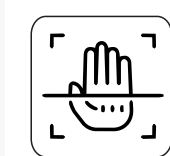

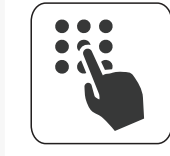

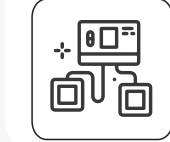

ADVANCED FUNCTIONS: ADVANCED ANTI-SPOOFING, CENTRALIZED ACCESS CONTROL, REAL-TIME MONITORING.

Face, Palm & PIN Series

OVERVIEW-

Dual-biometric devices combining face and palm recognition for enhanced security.

Categories:

-  Face Recognition
-  Palm Recognition
-  Fingerprint
-  Card
-  Password
-  Multi-modal Devices

Details

Benefits:

Improves security accuracy while maintaining hygiene and user convenience.

Key Features:

Face and palm authentication, fast response time.

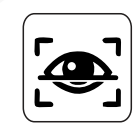

ADVANCED FUNCTIONS: AI LIVENESS DETECTION, CLOUD-BASED MONITORING, MOBILE ACCESS, SYSTEM INTEGRATION.

Iris & Face Series

OVERVIEW-

High-security biometric devices designed for maximum identity accuracy.

Categories:

Iris Recognition

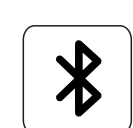

Face Recognition

Wi-Fi

4G

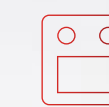

Bluetooth

Details

Benefits:

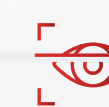

Delivers unmatched accuracy and prevents identity fraud in sensitive environments.

Selfie-Type User Interface

Auto-tilt with 1.45-1.85m height coverage

Fake Detection

<0.5 sec Verification Speed

Key Features:

Dual biometric verification using iris and face recognition.

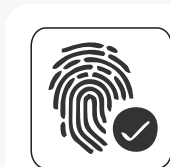

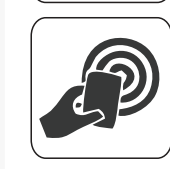

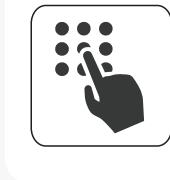

ADVANCED FUNCTIONS: ADVANCED ANTI-SPOOFING, CENTRALIZED ACCESS CONTROL, REAL-TIME MONITORING.

Card Reader

OVERVIEW-

RFID/MIFARE-based access solutions for fast and convenient entry control.

Categories:

-  Fingerprint
-  Card
-  Password

Details

Benefits:

Enables quick access, easy user management, and low maintenance operation.

Key Features:

Fast RFID reading, compact design, durable construction.

ADVANCED FUNCTIONS: INTEGRATION WITH CONTROLLERS, EM LOCKS, AND CENTRALIZED ACCESS SOFTWARE.

Door Controller

OVERVIEW-

Centralized controllers for managing single or multiple access doors.

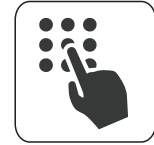

Categories:

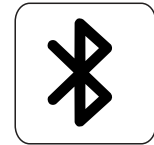

Fingerprint

Card

Password

Bluetooth

Details

Benefits:

Improves access security, reduces manual monitoring, and supports scalable installations.

Key Features:

Multi-door support, secure access logic, stable performance.

ADVANCED FUNCTIONS: TIME-BASED ACCESS RULES, FIRE ALARM INTEGRATION, REMOTE DOOR MONITORING.

UL LISTED EM LOCK & ACCESSORIES

UL No: R41142

ACCESSORIES

**3x3 Metal
Push Button**

**1x3 Metal
Push Button**

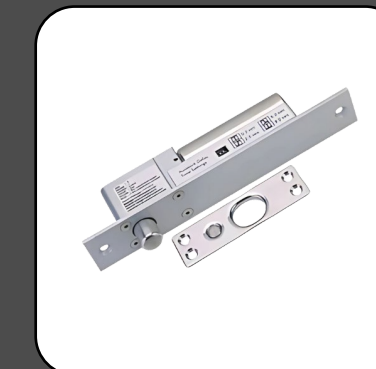

**3x3 No Touch
Push Button**

**U, L & Z
Bracket**

**Emergency Door
Release Button**

**Wooden Drop
Bolt Lock**

**MIFARE &
Proximity Card**

**Mini
UPS**

OVERVIEW-

Turnstiles, flap barriers, swing gates, and full-height gates.

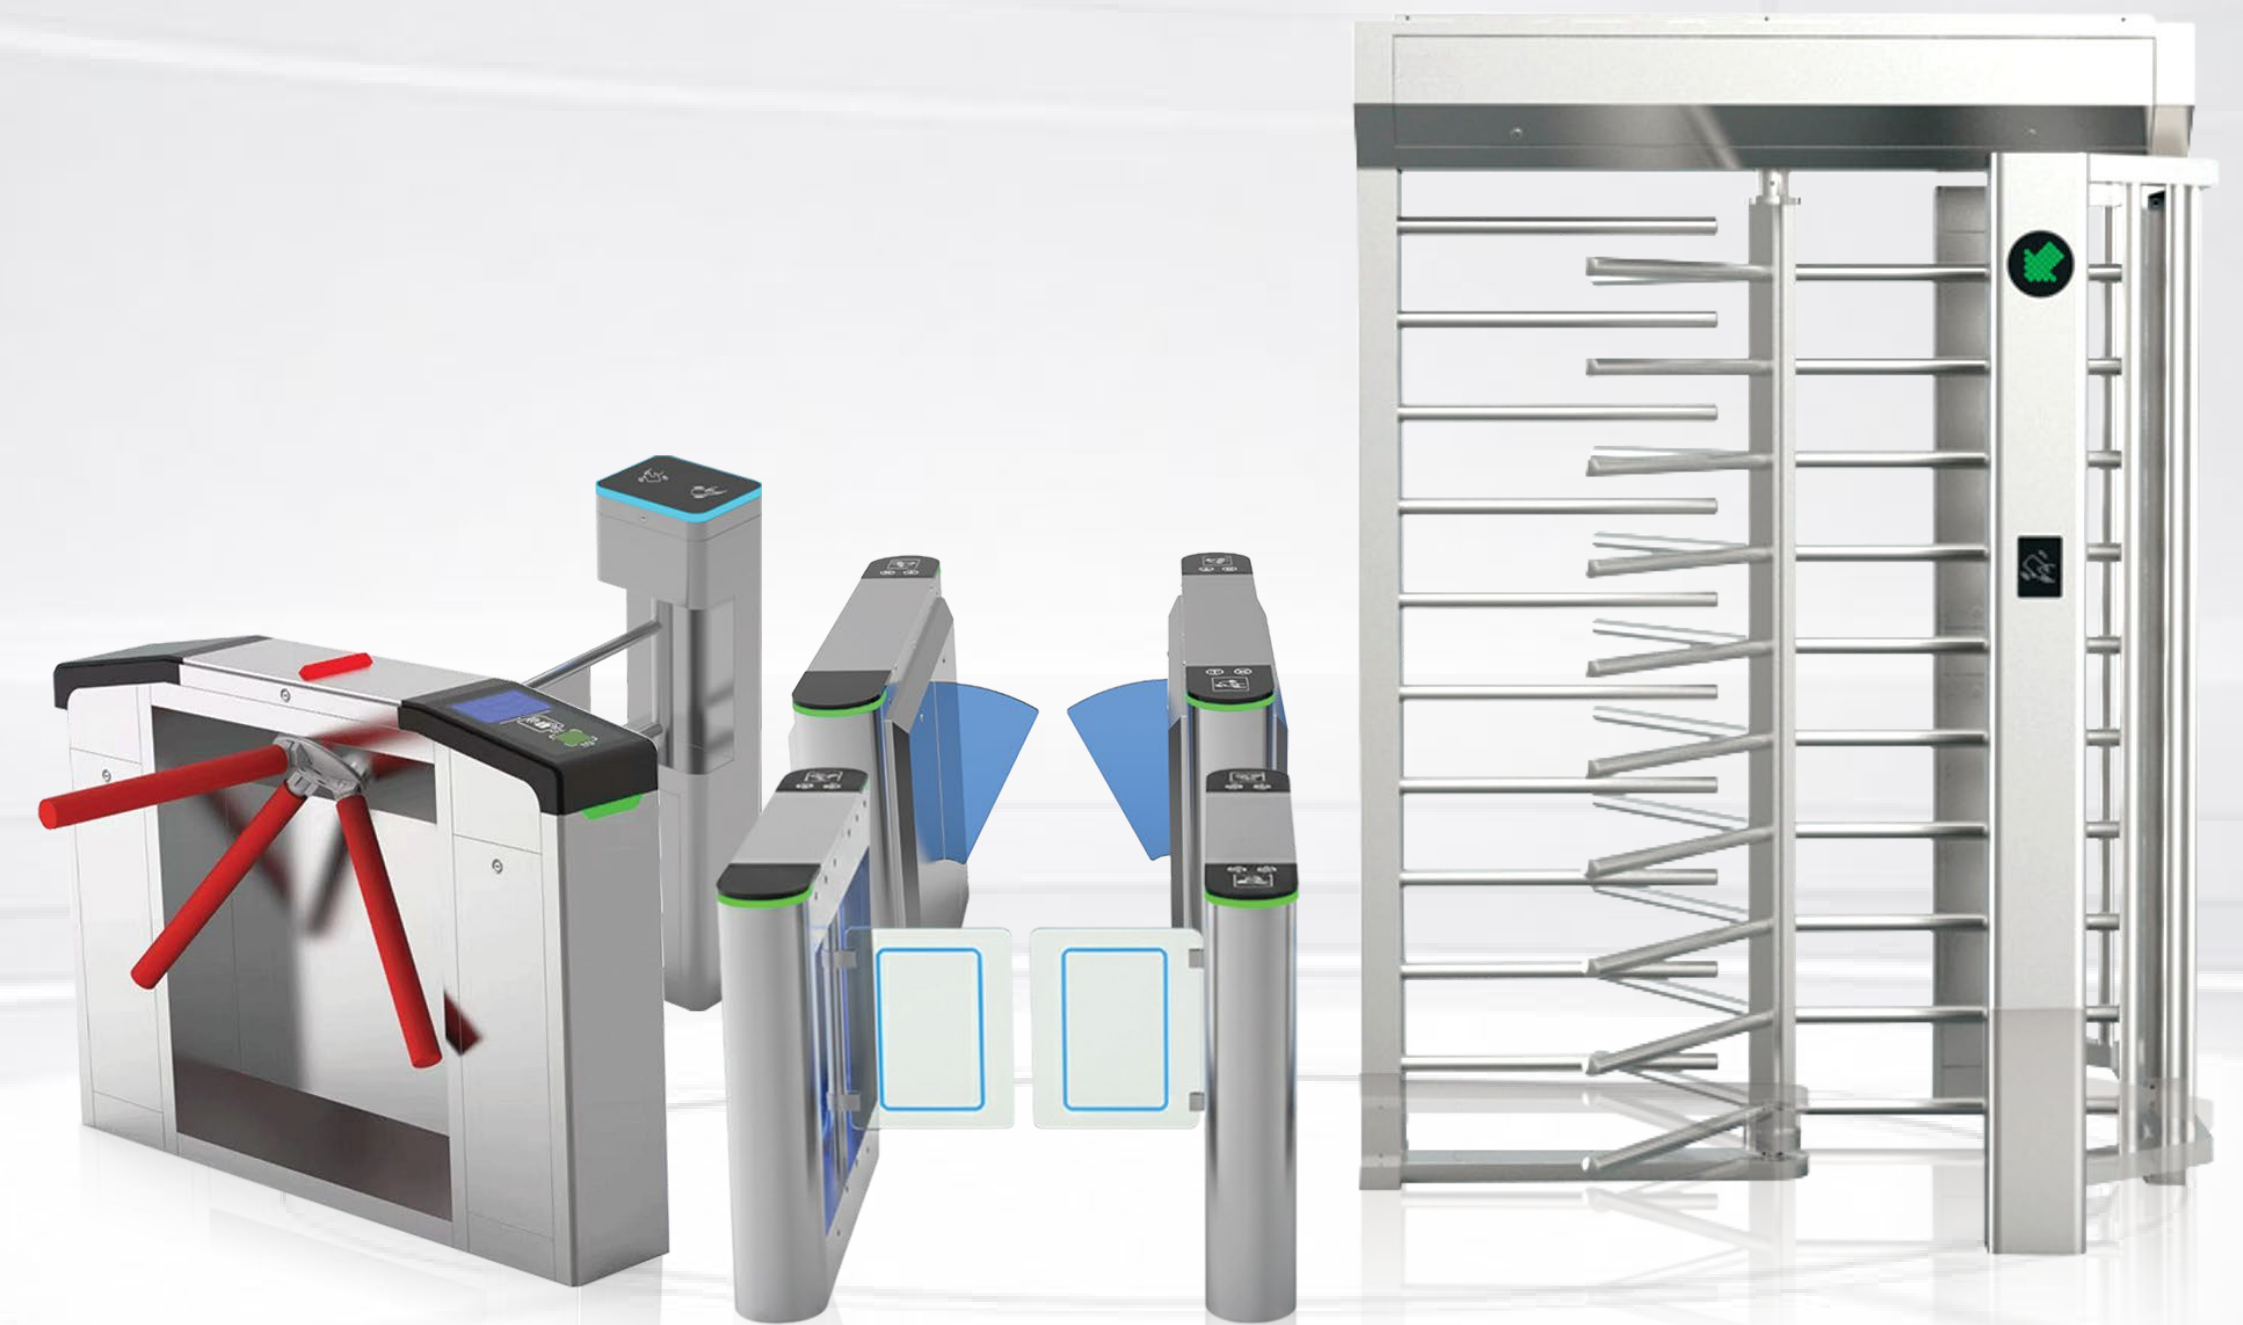

Categories:

- Tripod Turnstiles
- Flap barriers
- Swing gates
- P-Type Swing Gate
- Full-height Turnstile gates

Details

Benefits:

- Biometric integration (Face, Fingerprint, Card, PIN & QR)
- Fast throughput
- Stainless steel construction
- Multi-sensor safety

BUILT FOR

Airports, metros, corporate lobbies, and stadiums.

ADVANCED FUNCTIONS: ANTI-TAILGATING SECURITY | FIRE ALARM INTEGRATION | EMERGENCY FREE PASSAGE

03

PARKING & TRAFFIC SOLUTIONS

OVERVIEW-

Intelligent vehicle access and traffic management solutions for secure and efficient movement control.

Categories:

- Boom Barriers
- Rising Bollards
- Spike Barriers
- ANPR Systems
- UHF Reader

Details

Benefits:

- Prevents unauthorized vehicle entry
- Reduces congestion
- Enhances perimeter security

Key Features:

Automated vehicle access with fast, reliable, weather-resistant operation.

ADVANCED FUNCTIONS: AI VEHICLE RECOGNITION | ANTI-RAM PROTECTION | REMOTE SYSTEM MONITORING

04

SECURITY INSPECTION SOLUTIONS

OVERVIEW-

Advanced inspection systems designed to detect concealed threats and enhance security screening accuracy.

Categories:

- Door Frame Metal Detector
- Handheld Metal Detector
- X-Ray Baggage Scanner
- Narcotics & Chemical Detector
- Under Vehicle Surveillance System

Details

Benefits:

Improves public safety, enables fast and non-intrusive screening, reduces security risks, and supports efficient threat detection.

Key Features:

High-precision systems for detecting metal, baggage threats, and contraband.

ADVANCED FUNCTIONS: AI THREAT ANALYSIS, ADJUSTABLE SENSITIVITY, DATA LOGGING, NETWORK CONNECTIVITY.

SOFTWARE & APPLICATIONS

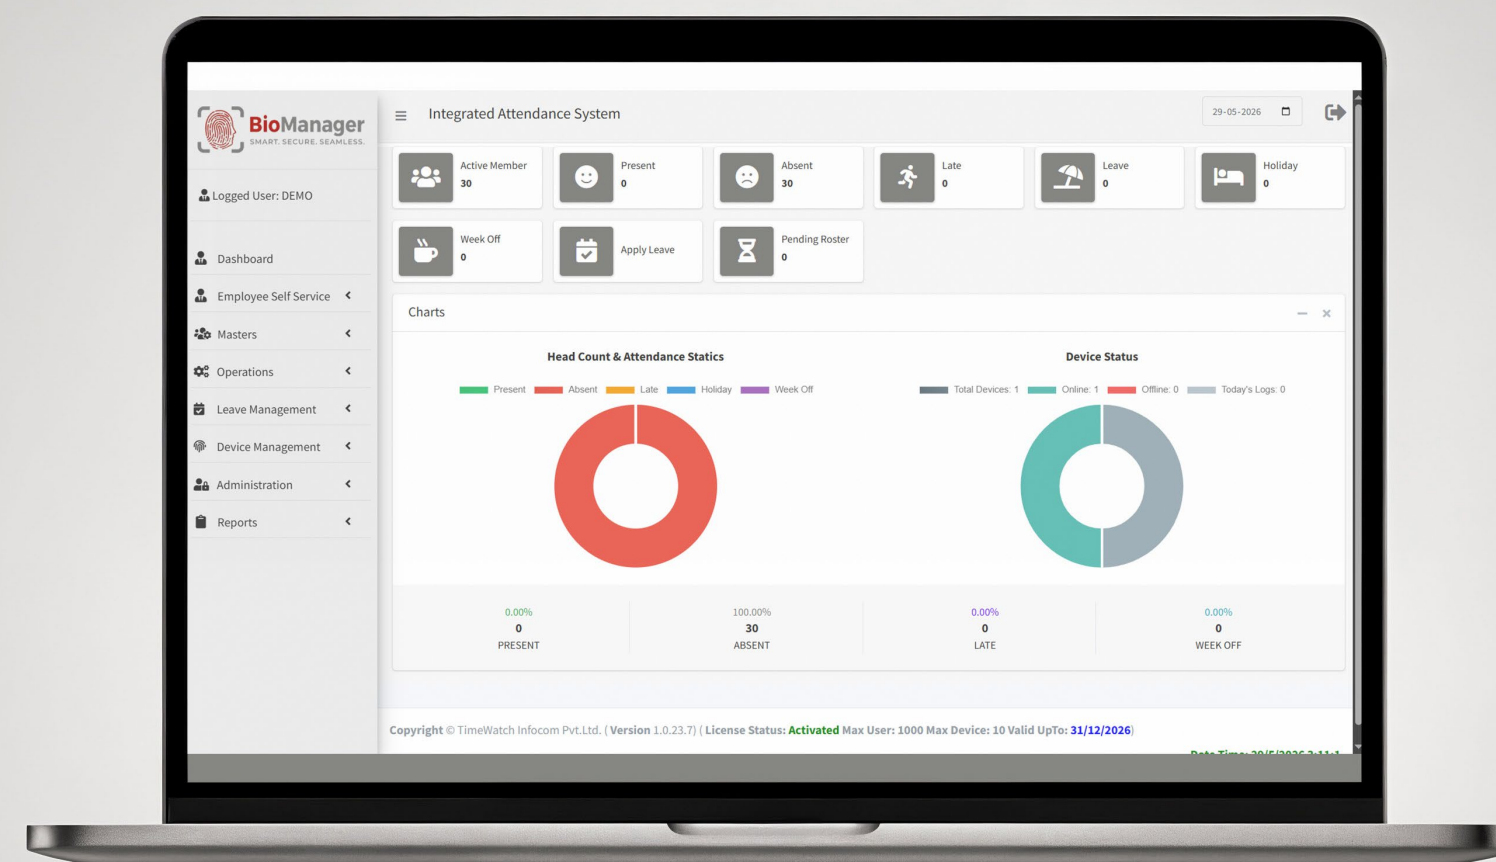

OVERVIEW-

Smart, accurate and scalable attendance devices designed for enterprises.

Software Types:

- BioManager
- Payroll Management
- Mobile Application
- Visitor Management System
- Parking Management System
- Canteen Management System
- GYM Management System

BioManager

KEY FEATURES:

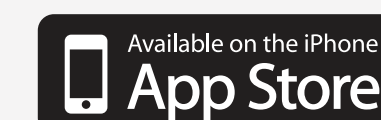

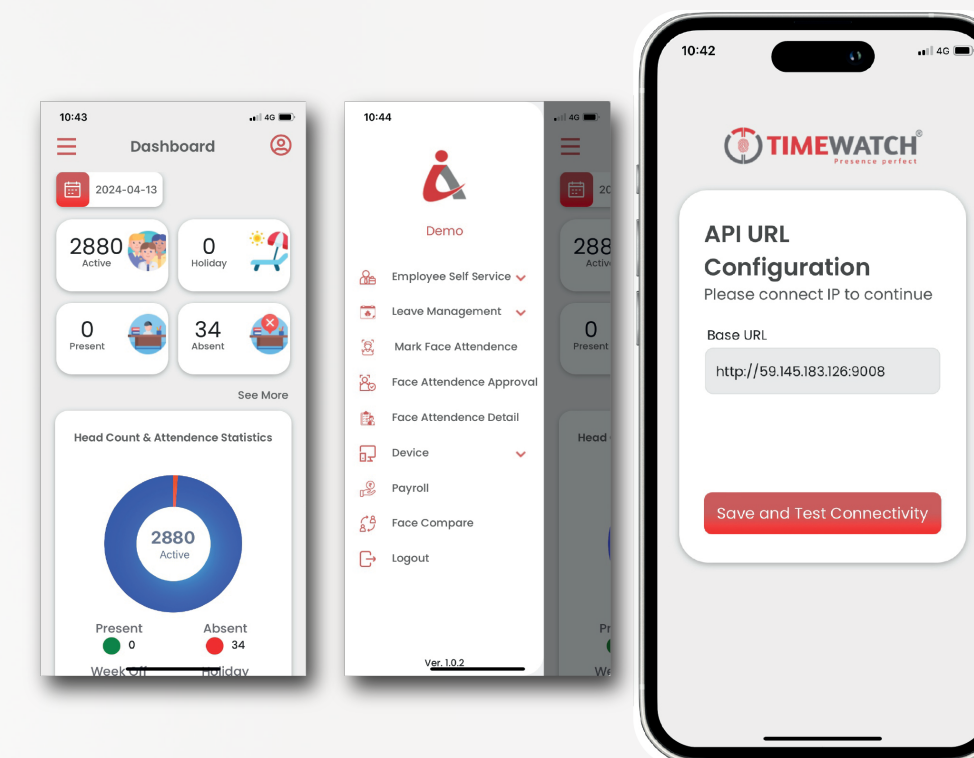

Centralized platform for attendance | payroll, visitors | and workforce management.

ADVANCED FUNCTIONS: CLOUD SYNCHRONIZATION, MOBILE ACCESS, API INTEGRATION, REAL-TIME ANALYTICS.

DETAILS

Benefits:

- Real-time data visibility
- Reduces manual errors
- Easy compliance management
- Scalable for multiple locations
